Career outcomes

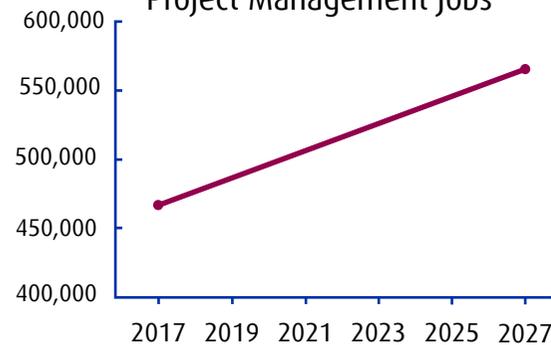

“The future Project Manager will be increasingly strategic and connected. This requires individuals to develop their skills in areas outside traditional project management practices, such as change management. Additionally they will need to be a very effective communicator who understands the dynamic link between the business strategy and the projects they are responsible for delivering.”

Course information

Learn to lead and manage effective projects in uncertain environments with our contemporary Diploma of Project Management.

This qualification provides the skills and working knowledge, as well as the understanding of methods, techniques and tools available, to plan and manage projects that achieve the goals and objectives important to project managers and their organisation.

It is suitable for those who develop project management plans and have sole responsibility for achieving a project's objectives; who report the outcomes of a project to a higher authority in their organisation; or those who monitor and review the whole project as it progresses through its lifecycle.

Entry requirements

- Entry is open to all applicants. Students would benefit from a suitable level of workplace responsibility allowing sufficient opportunity to demonstrate competency through completion of tasks related to their job role

Duration

- 11 hours per week over a study period up to 2 years

Suitable for

- Individual Students
- Corporate Groups
- Trainees

Delivery mode

- Online learning
- Customised in-house training for groups, corporations and organisations.

Student testimonial

““

An excellent way to study using your industry knowledge as the basis for improved learning. The online aspect was quite easy to use and presented no specific difficulties. My tutor was very good and quite responsive and the office staff checked in regularly to see how I was going and made adjustments to my program to suit my specific circumstances. Definitely recommend UNE Partnerships.

- John Nash

Graduate outcomes

On successful completion of this qualification, you will have the skills and knowledge to:

- write effective project plans to meet the delivery requirements of corporate/business expectations
- use mechanisms linked with the project plan for the day-to-day control of projects to meet objectives
- provide quality deliverables, with the ability to meet reporting requirements on demand
- select appropriate tools to support monitoring and control mechanisms
- assign agreed responsibilities to get the best out of core and broader team capabilities.

Pathways

Successful attainment of the BSB51415 Diploma Project Management will allow for credit in AQF qualifications, (including the BSB61218 Advanced Diploma of Program Management) in accordance with relevant training package rules and recognition requirements.

Successful attainment of the [BSB51415 Diploma of Project Management](#) will allow for entry into a range of undergraduate and postgraduate awards offered by the [University of New England \(UNE\) Business School](#).*

*Applications must address UNE Program entry criteria. Enrolment fees are set annually by the UNE.

Learning outcomes

12 units of competency must be successfully completed to attain this qualification.

BSBPMG511

Manage project scope

Describes the skills and knowledge required to determine and manage project scope. It involves obtaining project authorisation, developing a scope management plan, and managing the application of project scope controls.

BSBPMG512

Manage project time

Manage project time unit describes the skills and knowledge required to manage time during projects. It involves determining and implementing the project schedule, and assessing time management outcomes.

BSBPMG513

Manage project quality

Equips students with the knowledge required to manage quality within projects. It involves determining quality requirements, implementing quality control and assurance processes, and using review and evaluation to make quality improvements in current and future projects.

BSBPMG514

Manage project cost

Manage project cost unit describes the skills and knowledge required to identify, analyse and refine project costs to produce a budget, and to use this budget as the principal mechanism to control project cost.

BSBPMG515

Manage project human resources

This unit describes the skills and knowledge required to manage human resources related to projects. It involves planning for human resources, implementing personnel training and development, and managing the project team.

BSBPMG516

Manage project information and communication

This unit covers the skills and knowledge required to link people, ideas and information at all stages in the project life cycle. Project communication management ensures timely and appropriate generation, collection, dissemination, storage and disposal of project information through formal structures and processes.

BSBPMG517

Manage project risk

This unit covers the skills and knowledge required to manage risks that may impact achievement of project objectives. It involves identifying, analysing, treating and monitoring project risks, and assessing risk management outcomes.

BSBPMG518

Manage project procurement

Manage project procurement covers the skills and knowledge required to undertake procurement in projects. It applies to individuals responsible for managing and leading a project in an organisation, business, or as a consultant.

BSBPMG519

Manage project stakeholder engagement

Describes the skills and knowledge required to manage stakeholder relationships. It applies to individuals responsible for managing and leading a project in an organisation, business, or as a consultant.

BSBPMG520

Manage project governance

Manage project governance unit describes the skills and knowledge required to establish and implement project governance. It involves identifying, applying, monitoring and reviewing project governance. It applies to individuals responsible for managing and leading a project in an organisation, business, or as a consultant.

BSBPMG521

Manage project integration

Students are equipped with the skills and knowledge required to integrate and balance overall project management functions of scope, time, cost, quality, human resources, communications, risk and procurement across the project life cycle; and to align and track project objectives to comply with organisational goals, strategies and objectives.

BSBWOR502

Lead and manage team effectiveness

This unit describes the skills and knowledge required to lead teams in the workplace and to actively engage with the management of the organisation. It applies to individuals working at a managerial level who facilitate work teams and build a positive culture within their work teams.

Course fees*

We provide a range of flexible payment options to help you achieve professional success sooner.

Pay upfront

\$6,490 AUD[^]

Flexible payments

Pay weekly, fortnightly or monthly over 12 months

Government assistance

State and Commonwealth government assistance may be available

Third party

Seek financial assistance from your employer or another third party

Funding

We can help you to access funding and financial assistance through a range of State and Commonwealth Government initiatives.

Smart and Skilled (NSW)

This is where the NSW Government pays for most of your course fees, leaving you with a small out-of-pocket gap. There are separate streams for trainees and regular students.

Smart and Skilled training is subsidised by the NSW Government.

Vet Student Loans

This is where the Australian Government initiative helps eligible students pay for their tuition fees.

Your loan is repaid through the Australian tax system when you reach the minimum income threshold for repayment, which is set by the Australian Government each year.

Visit our website for more information about our fees and funding www.unep.edu.au/students/fees-and-funding

* Terms and conditions apply. [^]Information is correct as at January 2021.
